IBPS WORKFLOW CHANGE

CR107/26

RETAIL BANKING

RETAIL CREDIT SOLUTIONS

INITIATED BY EMMAH K. MUSYOKA

ON 11/03/2026 11:15

CHANGE BACKGROUND

This paper seeks to effect changes to the Retail Banking (KE)- BB IBPS workflow to reflect the actual flow of applications; whereby we are seeking to expunge the checker queue in BB IBPS so that The Relationship Manager is the originator and is also able to route application directly to Appraisal queue. These changes are to be considered under normal IBPS maintenance.

SCOPE AND EXPECTED OUTPUT

The change sought will be effected on the BB IBPS Workflow: whereby we are seeking to expunge the checker queue in BB IBPS so that The Relationship Manager is the originator and is also able to route application directly to Appraisal queue. This will reduce the TAT from 6.4 hours to 4 hours with approximately 30 applications reviewed per day

OPTIONS CONSIDERED

Option #1: Do Nothing

Description	Maintain Status Quo.
Impact	• Misaligned roles and workflows • Longer TAT
Option Benefits/Dis-benefits	No benefits
Costs	N/A
Time	N/A

Option #2: <Do Something>

Description	The change sought will be effected on the BB IBPS Workflow workflow: whereby we are seeking to expunge the checker queue in BB IBPS so that The Relationship Manager is the originator and is also able to route application directly to Appraisal queue.
Impact	• Operational efficiency. • Shortened workflow steps
Option Benefits/Dis-benefits	• Reduced staff effort. • Optimal utilisation of resources due to reduced staff effort. • Improved TAT to shorter workflows • Improved user experience due to reduced work steps
Costs	No costs as this will be effected internally
Time	TBA by the Technical team.

Option #3: <Do Something Else>

Description	N/A
Impact	N/A
Option Benefits/Dis-benefits	N/A
Costs	N/A
Time	N/A

CHOSEN OPTION FOR THIS PROJECT

Chosen Option	Option 2 - Do Something
Reason	• Change necessitated by internal structural changes • Is Technically Feasible • Is within the current capabilities of the system • Improved TAT

BENEFITS EXPECTED

Financial Benefits

Benefits	Indicator	Before CR	After CR	Comment	Timeline
There are no Financial Benefits					

Non Financial Benefits

Benefits	Indicator	Before CR	After CR	Comment	Timeline
TAT	Monthly SLA/TAT	High Initiation SLA/TAT	Shortened work steps	Shortened work steps	1 month

IMPACT

People	• Staff to be made aware about the new process/changes if/where impacted
Process	• Amended Credit origination process and SLA
System	IBPS
Other Systems	N/A

KEY RISKS

Risk	Risk Impact	Risk Description	Mitigants
Compliance & Regulatory Risk	Low	No maker- checker , since RM will initiate and route application directly to analyst queue.	EWQ report and Checklist reports are counter signed by the Branch manager/Team leader. Also the analyst carries out a 360 degree review of the application

PROJECTED COST AND TIME

	Best Case	Worst Case
TOTAL COST Estimated to Project Completion	KES 0	KES 0
TOTAL TIME Estimated to Project Completion	0 Day(s)	0 Day(s)
